

	PURPOSE	COMPOSITION	APPLICATION
<b>MULCHES</b>			
<b>PREMIUM COMPOST</b>	A rich earthy compost for enriching gardens.	Straw, pig manure, liquid manure, sawdust and mushroom farm compost.	50mm
<b>KARRI &amp; PEAT MULCH</b>	A popular attractive, 100% organic mulch, restricts weeds and aids water retention.	Premium mulch containing karri bark and screened peat.	50-100mm
<b>JUNGLE MULCH</b>	This coarse mulch is most suitable for gardens prone to strong winds, large gardens or commercial applications.	A coarse blend containing uncrushed barks and screened peat.	50-100mm
<b>ENVIRO MULCH</b>	A basic mulch with an earthy-brown colour, particularly suitable for commercial applications and native gardens.	This mulch contains crushed composite garden and tree waste with tree prunings.	50-100mm
<b>BLACK MULCH</b>	Another very popular "all purpose" mulch ideal for all garden and commercial applications. Protects soil and aids water retention.	Black mulch contains pine slithers, crushed composite tree waste and screened peat to create an easy to spread mulch.	50-100mm
<b>BUDGET MULCH</b>	A budget product that provides all the benefits of a mulch - enrich the soil, inhibit weed growth and aid water retention.	This mulch contains crushed composite garden and tree waste with tree prunings, barks and peat.	50-100mm
<b>SOIL MIXES</b>			
<b>LANDSCAPE MIX</b>	An ideal "all purpose" soil mix suitable for planting garden beds, rockeries and lawns. Used by the professionals!	A blend of topsoil, sawdust, fertilisers and peat for water retention.	to root depth
<b>VEGIE &amp; FLOWER MIX</b>	A rich soil suitable for new plantings or topping up the vegie garden or flower bed.	A blend of compost, sawdust, Gin Gin red loam, fertilisers, karri bark and peat.	to root depth
<b>NATIVE SOIL MIX</b>	Designed for Perth's natives with low organics but moisture and nutrient retention qualities.	As some native plants react poorly to fertilisers, this blend only contains topsoil, Gin Gin red loam and peat.	to root depth
<b>SPECIAL LAWN MIX</b>	Ideal for top dressing or planting new lawns.	Lawn sand, sawdust, fertilisers and Gin Gin red loam.	10mm for top dressing
<b>POTTING MIX</b>	Specifically designed for pots, this free draining mix promotes healthy growth in plants.	Selected river sands, peat, sawdust and crushed bark.	to root depth
<b>CONDITIONERS</b>			
<b>SOIL CONDITIONER</b>	Designed to be mixed with Perth's sandy soil to create a healthy soil and strong plant growth. For best results add a slow release fertiliser.	Combines peat, fine wood shavings, Gin Gin red loam, sawdust and fertilisers.	50mm Dig in to depth of 150mm
